

TEACHERS' EVOLUTION WORKSHOP REGISTRATION

Organized by Oklahomans for Excellence in Science Education (OESE) and sponsored by the University of Oklahoma Biological Station and the Sam Noble Museum of Natural History.

September 5th, 2009, 9:30 AM-5:30 PM, in the Plains Classroom at the Sam Noble Oklahoma Museum of Natural History, 2401 Chautauqua, Norman, Oklahoma

Registration Form

Name: _____

School/organization: _____

Mailing address: _____

Phone: _____ e-mail address (required) _____

Courses taught: _____ Years teaching: _____

For science education students indicate year of study ____ Degree _____.

Each participant is required to participate in a group discussion of some aspect of evolutionary teaching that they would like to share with others in the workshop. It is not necessary to give an elaborate presentation with Powerpoint slides, etc. You may want to share a favorite lesson plan or laboratory exercise that has been successful in providing your students with a greater understanding of evolution. Or, you may want to seek an answer to problems that you have encountered in teaching evolution; either in presenting scientific concepts or in addressing student objections.

Don't be hesitant to present! It is exciting to work with a diversity of teachers who share the same goal of involving students in learning about evolution and all will benefit from the interaction with other participants.

Please provide a one or two sentence description of what you would like to discuss:

Registration and Fee payment:

Registration fee is \$25.00. **Registration deadline is Aug. 1, 2009**

- I expect to pay by PO on the day of the workshop
- Check enclosed for \$25.00 (make checks to University of Oklahoma)

Fill out and mail completed form and check to:

Oklahoma Biological Station, att. D. Cobb
1074 OU Road
HC 71, Box 205
Kingston, Oklahoma 73439-9738

A confirmation letter with additional information will be sent by August 15, 2009.
